Description

Beyond the Barn – Dodging Cow Patties for 50 Years by a Country Vet is the compelling adventures of a country vet 50 years in the making. Dr. Don Sanders traveled the world as a large animal veterinarian. He had found his calling alongside his wife and colleague Dr. Judy. Originally an Ohio farm boy, he and Dr. Judy founded a vet clinic in 1968 that grew to a fully-equipped, nationally recognized clinic for large and small animals. Doc's observations on life and experiencing hundreds of clients from all walks of life led to Doc recording many of these experiences they had with animals and their owners. Read about many of these extraordinary experiences in the chapters of *Beyond the Barn*.
